

OUTLAW INDUSTRIAL TURNSTILES

AG-24-TQH-T

Outlaw Industries Turnstiles are American Made
With American Products by Patriotic American Craftsmen.

Description

The Outlaw AG-24-TQH-T is a unique three-quarter-height industrial turnstile that offers control of the movement of people in a building. Ideal for settings that don't require full-height security, but want a strong physical barrier for the monitoring of entrances and exits.

- Unique three-quarter height design
- Industrial-strength materials
- Two-Way Electronic controls
- Card reader mounting plates included
- Choice of finish to complement the surroundings
- Matching filler barrier and swing gate options
- Company commitment to use Electronics and Metals Made in the USA

Options

- Curved or square outer frame
- Custom passage width (24" Standard)
- Galvanized (Standard)
