

AG SERIES FULL HEIGHT SECURITY GATES

The AG Series Full Height ADA Gate is designed with security durability, and style in mind. Our gates can be configured with your choice of style, size, opening direction, lock, and finish. With tough-welded steel construction, security-grade infills, and an adjustable hydraulic self-closing hinge, our gates stand the test of time. A variety of access control accessories are also available. Made in the U.S.A.
