

METAL DETECTOR DIVESTING TABLE

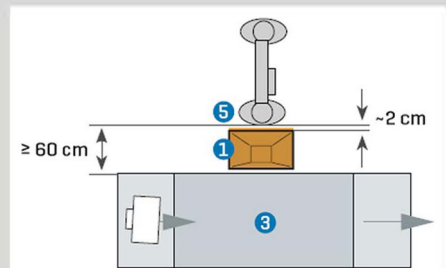

- Certified for Zero-Influence on Metal Detector Gates
- Ergonomic Depository Area
- Robust and Reliable
- Easy to Clean and to Maintain
- Color Matched with the Gate Structure

In combination with Walk-Through Metal Detectors, the Metal Detector Divesting Table is a temporary location of personal metal effects for people to be screened. The base is constructed in material that guarantees maximum compatibility with the Metal Detector.

Installation example

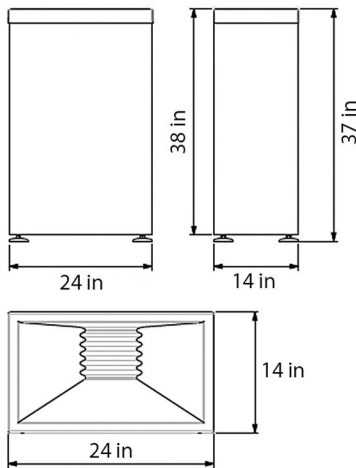

- 1 Metal Detector Divesting Table
