Product Data Sheet

IRLC-SW
Infinity Remote Lane Control-Software

The Orion Entrance Control SpeedLane™ turnstiles are enhanced by incorporating the Infinity Remote Lane Control™ (IRLC) software. The IRLC is a user-friendly lane control software that is intuitive and offers an array of support for end users and integrators.

Orion's Infinity Remote Lane Control software offers a robust set of features, including advanced alarm type display, technical service tools, lane beam status, I/O status, and on-the-fly volume adjustment.

Infinity Remote Lane Control software maximizes the performance of your Orion SpeedLane turnstile project and can be managed on your PC.
