TSG STANDARD 6
TSG-APPROVED EQUIPMENT

DEVICE TYPE : Type-accepted Analog Disconnect

MANUFACTURE Fuller Manufacturing

R: MODEL: Analog Fire Wall

TRADE NAME: Not Applicable

DESCRIPTION & USE: Analog line disconnect device that is installed in-line between a telephone or telephonic device and the Central Office. The Analog Fire Wall provides positive disconnect on the line, isolating possible on-hook audio coming from the telephone. A power failure results in a disconnect, providing isolation with no telephone service. The unit runs on 24 voe from a local power supply.
