TSG STANDARD 6 TSG-APPROVED EQUIPMENT

DEVICE TYPE: Type-accepted Analog Disconnect

MANUFACTURE Fuller Manufacturing

R: MODEL: Analog Fire Wall

TRADE NAME: Not Applicable

USE:

DESCRIPTION & Analog line disconnect device that

is installed in-line between a telephone or telephonic device and

the Central Office. The Analog Fire Wall provides positive disconnect on the line, isolating

possible on-hook audio coming from the telephone. A power failure results in a disconnect,

providing isolation with no telephone service. The unit runs

on 24 voe from a local power

supply.
