

EXT-LED Solar Powered Outdoor Light

Security Lighting Accessories

Features

- Outdoor Industrial Solar Powered LED
- Turnstile Canopy Light Accessory
- Brighter than ever: Extra bright illuminating up to 6000 Lumens.
- Color temperature: White light 6500K
- 60W Self-sustaining energy use
- No wires or electrical power needed
- Weatherproof materials: Weather-resistant, rustproof, heavy-duty resin frame provides extra reliability and durability, especially in humid climates and coastal communities. You don't have to worry about rain damage and sun exposure. These light fixtures can still charge even with ice or snow on the Solar Panel.
- Remote Control: Use the remote control to select the desired lighting mode.

Three Lighting Modes

1. **Radar/Motion Sensor:** the light will stay ON at 30% brightness and if it detects movement, will turn ON at full brightness, then go back to 30% of brightness if no more movement is detected.
2. **Timer:** set the light to stay ON at full brightness for 6, 4, or 2 hours, then it will automatically turn OFF.
3. **On/Off Control:** the light will stay ON at full brightness all night long. Control by On/Off Switch.
