

Extruded Aluminum Surface Raceway

Durable Cable Protection for Indoor & Outdoor Applications

What's special about this metal raceway?

- Aluminum construction provides extra durability and resistance to dirt, fingerprints, and corrosion.
- There are no pre-drilled mounting holes; install using double-sided tape or drill holes where you want for precision installation.
- Snap-on cover ensures fast and easy installation.
- Raw aluminum has a great industrial look and may be painted to match any desired environment.

This aluminum raceway is designed for durable cable protection and easy installation and to provide a great aesthetic. This rugged but lightweight raceway is great for commercial and industrial environment
